

4. The Atlantic Refining Company has filed Form C-110 showing the disposition of the gas and after connection is made will file such form again.
5. Atlantic's State "Y" No. 2 Well is capable of producing its penalized allowable of 16 BOPD from the Langlie Mattix Pool, and if closed in to prevent flaring of gas, will fail to recover all recoverable oil from its proration unit. It is Atlantic's opinion that correlative rights and the best interests of conservation will not be protected if this well does not produce.

Respectively submitted,

THE ATLANTIC REFINING COMPANY
