RE: Justis SWD System
Lea County, New Mexico
AFE H-479 & H479A

Dear Mr. Goodheart:

This letter will document Meridian's approval of the revised liner setting depth from 2,917' to 3,446' in your Henry No.2 SWD well. Meridian is the operator of the offset well, the Terra-Carlson "B" Federal No.1. It appears that the liner which was run in the Henry No. 2 should adequately protect producing intervals in our well. Should additional information be required please let me know.

Yours very truly,
Meridian Oil Inc.

A. L. Walker
Senior Engineer - Joint Operations
