Gentlemen:

The above referenced plugged well sites have recently been inspected by an Oil Conservation Division Representative in an attempt to release the locations.

As a result, the inspector found that the following work needs to be completed before the locations can be released.

#2 D

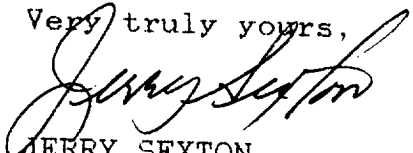

1. Correct unit on dryhole marker, should state unit D.

#9 H

1. Correct section on dryhole marker, should state Section 9.

When the above items have been corrected please contact Jerry Sexton at 505-393-6161 or sign this letter below and return it to our address stated above.

Very truly yours,
