Re: Status of Coll #1-B
Section 29-25-37

Gentlemen:

We have received in this office Form C-110 indicating a change of ownership on the Coll #1-B from Olsen-Elount Oil Co. to R. Olsen. A check of the records on this well shows that no oil is being produced from this well, nor has there been for some time. A further check shows that Mr. L. A. Hanson, Oil and Gas Inspector, checked this location and found that this well has been plugged, although our file does not reflect this information.

We shall appreciate it very much if you will clear up this matter as to the status of this well. If this is a plugged and abandoned location, please let us have, in addition to a Form C-103 designating a change of ownership, the proper plugging forms.

Yours very truly,

OIL CONSERVATION COMMISSION
