

NEW MEXICO OIL CONSERVATION COMMISSION

Santa Fe, New Mexico

MISCELLANEOUS NOTICES

Submit this notice in triplicate to the Oil Conservation Commission or its proper agent before the work specified is to begin. A copy will be returned to the sender on which will be given the approval, with any modifications considered advisable, or the rejection by the Commission or its agent, of the plan submitted. The plan as approved should be followed, and work should not begin until approval is obtained. See additional instructions in the Rules and Regulations of the Commission.

OIL CONSERVATION COMMISSION,
Santa Fe, New Mexico.

Gentlemen:

Following is a notice of intention to do certain work as described below at the

El Paso Natural Gas Co. Lanear Well No. 1 in C-NE 1/4
Company or Operator Lease
of Sec. 29, T. 25, R. 37, N. M. P. M., Lanlie Field,
Lea County.

FULL DETAILS OF PROPOSED PLAN OF WORK

FOLLOW INSTRUCTIONS IN THE RULES AND REGULATIONS OF THE COMMISSION

After setting Lane-wells bridging plugs at 2830 and 2640 and thoroughly testing each zone this well was still making 100% water with a very small amount of gas which eliminate all possible producing zones for a commercial production. We therefore request permission to plug and abandon this well in the following manner. Place a 50' cement plug in base of 5 1/2" casing and pull same. Then place a 50' cement plug at approximately 2300' or base of salt section and pull as much of the 7" as possible. Place another 50' cement plug at 1000' in the base of 9 5/8 with another cement plug in top of 9 5/8". The 9 5/8" and 15 1/2" casing will be left in hole as each string was circulated with cement and balance of hole filled with heavy mud. The location will be leveled and cleaned up and proper marker placed at location.

Approved JUL 6 1945 19
except as follows: A Bridge already
Re set under Egan cement
plug to hold cement in
place
