Wink, Texas

Place

December 12, 1938

Date

OIL CONSERVATION COMMISSION,  
Santa Fe, New Mexico.

Gentlemen:

Following is a notice of intention to do certain work as described below at the

**The Texas Company** **W.T. Lanehart** Well No. **1** in **NE-1/4**  
of Sec. **29**, T. **25 S.**, R. **37 E**, N. M. P. M., **Langlie** Field,  
**Lea** County.

## FULL DETAILS OF PROPOSED PLAN OF WORK

FOLLOW INSTRUCTIONS IN THE RULES AND REGULATIONS OF THE COMMISSION

Total depth - 3308' lime.

This well was completed June 9, 1936 with an initial production of 151 barrels oil plus 30% water flowing with a gas oil ratio of 550. The water percentage increased until it was necessary to use gas from the bradenhead of the same well to gas lift the well. Gas-lift operations were commenced in July 1937, and the well produced using this method until June 22, 1938, when the water percentage increased to 100% and the well was shut in.

We anticipate moving in tools and plugging this well back by stages and testing in an effort to plug off this water and again make a producer of this well.

Approved **DEC 14 1938**, 19\_\_\_\_  
except as follows:
