Box 68  
Hobbs, New Mex.

Gentlemen:

The latest gas-oil ratio on your L. W. Gregory "A" Well No. 22-N in Section 31, T-25-S, R-37-E, Jalmat Pool is in excess of 100,000 to 1. In accordance with Order R-520 this well is now a gas well, and will be placed in the gas proration schedule upon compliance with that order. In order that no loss of allowable will be incurred, the well will not be removed from the oil proration schedule until July 1, 1957.

Yours very truly,

OIL CONSERVATION COMMISSION

R. F. Montgomery  
Proration Manager

RFM/mc

1. The first step in the process of the investigation is the identification of the problem. This is done by the investigator who is assigned to the case. The investigator will then gather information about the problem and the people involved. This information will be used to determine the cause of the problem and the best way to solve it.
