Oil Conservation Commission
State of New Mexico

Gentlemen:

On December 14, 1954, Gulf Oil Corporation made written application for an exception to the New Mexico Oil Conservation Commission's Order No. R-520 in regard to the creation of a 640-acre non-standard gas proration unit in the Jalmat Gas Pool to be located in Section 32, T-25-S, R-37-E, Lea County, New Mexico. By your letter of January 10, 1955, we were advised that according to Rule 5(a), Paragraph 3, of Order No. R-520, 160 acres is the maximum acreage that could be assigned administratively to our Arnett Ramsey "B" Well No. 1 because of the well's location in respect to the south and west boundaries.

Therefore, Gulf Oil Corporation hereby resubmits an amended application for a 320-acre non-standard gas proration unit, comprising the W/2 of Section 32, T-25-S, R-37-E, Lea County, New Mexico, to be assigned to its Arnett Ramsey "B" Well No. 1 in the Jalmat Gas Pool. It is respectfully requested that the Commission place this matter on its Docket for the next regular Statewide Hearing.

The following facts are offered in support of this application:

- (1) Gulf Oil Corporation is the owner and operator of the 640-acre oil and gas lease known as the Arnett Ramsey "B" State Lease, Lea County, New Mexico, as shown on the attached plat.
- (2) Gulf Oil Corporation proposes that the above-described acreage be established as a non-standard 320-acre gas proration unit in exception to Rule 5(a) of Order No. R-520.
- (3) The Arnett Ramsey "B" Well No. 1, located 990 feet from the south line and 330 feet
