Upon further research, it was found that a cement retainer was set @ 2400' on June 29, 1990 and witnessed by a representative of the BLM. MOI respectfully request continued TA'd status until such time as this area can be evaluated for possible workover. As stated before, we are studying the Rhodes area and our plan is to move to the Jalmat field. We will retest the casing and the proper BLM office will be notified prior to running said test.
