Re: Final Plugging Report & Release
G. W. Dabbs #1-C
G. W. Dabbs #2-D
G. W. Dabbs #3-F
Sec. 35, T25S, R37E

Gentlemen:

The surface location of the above-referenced wells has been inspected and is ready to be released as soon as you have filed a subsequent report of the actual plugging operations on Form C-103. This report should give date well was plugged, where plugs were set and if any pipe was pulled.

Also, some tanks were left on location but the surface owner, George Willis indicates to us that you had given him the tanks. In order to have this on record so there will be no question later on, please have Mr. Willis give you a statement that he accepts the tanks and releases you from the obligation of removing them from location. Attach that statement to your C-103 when you send it to us.

Very truly yours,

OIL CONSERVATION DIVISION

Jerry Sexton
Supervisor, District I
