INSTRUCTIONS

This certificate shall be filed in OILADRUPT/CABLE with a copy of the title of the Oil Conservation Commission, covering each unit from which oil or gas is produced. The certificate shall be filed for an initial transporter and for subsequent loadings as warranted. After said certificate has been approved by the Oil Conservation Commission, one copy shall be forwarded to the transporter and one copy returned to the Director and two copies retained by the Oil Conservation Commission.

A new certificate shall be filed to cover each change in operating ownership of each change in the transporter except that in the case of a temporary change in transporter involving less than the allowable production for one production period, the operator shall in filing a new certificate notify the Oil Conservation Commission District Office and the transporter authorized by certificate on file with the Commission, by letter of the estimated amount of oil or gas to be moved by the transporter temporarily moving oil or gas from the unit and the name of such temporary transporter and a copy of such notice shall also be furnished such temporary transporter. Such temporary transporter shall not move any more oil or gas than the estimated amount shown in said notice.

This certificate when properly executed and approved by the Oil Conservation Commission shall constitute a permit for pipe line connection and authorization to transport oil and gas from the property named therein and shall remain in full force and effect until:

- a) Operating ownership changes
- a) The transporter is changed or
- c) The permit is cancelled by the Commission.

If any of the rules and regulations of the Oil Conservation Commission have not been complied with at the same time this report is filed, explain fully under the heading "REMARKS."

In all cases where this certificate is filed to cover a change in operating ownership, the transporter designated to move oil or gas, show under "REMARKS" the previous owner or operator and the transporter authorized authorized to transport oil or gas.

A separate report shall be filed to cover each method of production authorized by the Oil Conservation Commission.
