10. Describe in detail the proposed operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work). SEE RULE 1153.

Communications between the Tubb-Drinkard and Blinbry zones and declining production led to the decision to plug and abandon the Tubb-Drinkard. It is proposed to set a CIBP at approximately 5530' and dump 2 sacks cement on top. The well will be produced as single completion in the Blinbry zone (5232-5310').

I, I hereby certify that the information above is true and complete to the best of my knowledge and belief.
