

SINCLAIR OIL & GAS COMPANY

NUD HAYD, TEXAS

April 30, 1950

New Mexico Oil Conservation Commission (2)
P. O. Box 2045
Hobbs, New Mexico

Attention: Mr. A. G. Jensen, Jr.

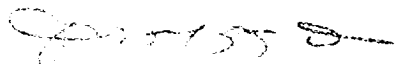

ILLEGIBLE

Gentlemen:

With reference to Sinclair Oil & Gas Company's application for dual completion for their J. H. McClure Well No. 20 in the Dollartide Queen and Dollartide Brinkard Pools, Lea County, New Mexico, this is to advise that we desire to change the Queen zone tubing from 1 1/2" Textube to 2 1/16" Hydril. This revision is necessary in order to comply with the requirements of Statewide Rule 112-A II Paragraph (c).

Enclosed please find a detailed diagrammatic sketch of the proposed dual completion installation reflecting this change.

Yours very truly,

J. Mofford
