Dear Sir:

Mr. W. A. Cressett, Oil and Gas Inspector for the Commission, has made an inspection of the location for your Fowler Hair No. 4 in Unit D of Section 30, T-24-S, R-38-E and has found that the dead men wires have not been cut and the location has not been inscribed on the marker as required.

When these things have been done, please file Form C-103 outlining the work done when plugging the well. A final inspection of the location will then be made and the Form C-103 approved if everything is in order.

Yours very truly,

OIL CONSERVATION COMMISSION
