New Mexico Oil Conservation Commission P, O. Box 371 Banta Fe, New Mexico

Re: Application for Dual Tubingless Completion, State of New Mexico "BZ" (NCT-10) Well No. 3, Lea County, New Mexico

Attention: Mr. A. L. Porter, Jr.

Centlemen:

Attached is TEXACO's application for tubingless completion for the State of New Mexico "BZ" (NCT-10) Well No. 3, located 1960 feet from the south line and 990 feet from the west line, Unit L, Section 2, T-25-S, R-37-E, Lea County, New Mexico. TEXACO plans to complete this well as a dual tubingless oil completion in the North Justis (Blinebry and Drinkard) Pools. It is anticipated that all zones will be oil completions and will flow initially. Approval has been granted previously by the New Mexico Oil Conservation Commission for these zones in TEXACO Inc., State of New Mexico "BZ" (NCT-10) Well No. 1.

Also attached is a copy of the plat showing the area immediately surrounding TEXACO's State of New Mexico "BZ" (NCT-10) Lease and a diagrammatic sketch of the pro-

posed dual tubingless completion. It is respectfully requested that TEXACO Inc. be granted administrative approval for this application as provided for under Rule 112-A.

Yours very truly,

J. G. Blevins, Jr. Assistant District Superintendent

WPY-bl

cc: NMOCC, Hobbs

Should waivers from all offset operators not accompany an application for administrative approval, the New Mexico Oll Conservation Commission will hold the application for a period of twenty (20) days from date of receipt by the Commission's Santa Fe office. If, after said twenty-day period, no protest nor request for hearing is received by the Santa Fe office, the application will then be processed.

NOTE: If the proposed multiple completion will result in an unorthodox well location and/or a non-standard protation unit in either or both of the producing zones, then separate application for approval of the same should be filed simultaneously with this application.
