(INDICATE ABOVE BY CHECK MARK NATURE OF REPORT, NOTICE, OR OTHER DATA)

Hobbs, New Mexico August 1, 1963Well No. 1 is located 1900 ft. from XX line and 1900 ft. from XX line of sec. 21NE 1/4 Sec. 21 25-S 16-E N.M.P.M.
(1/4 Sec. and Sec. No.) (Twp.) (Range) (Meridian)West Jal Stream - Gas Pool Lea New Mexico
(Field) (County or Subdivision) (State or Territory)

The elevation of the derrick floor above sea level is _____ ft.

DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

We have drilled this well to 12,150' in Line & Chert with no commercial quantities of oil or gas encountered. We plan to deepen this well with rotary tools to approximately 12,900'. The casing program will not be changed other than 5" OD liner will be extended to total depth and cement increased to 750 sacks on liner. The Pump & Plug process will be used in cementing liner. Well will be completed through 5" OD Liner perforations.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.
