Re: Zone Segregation Test
State of New Mexico BE MCT-10
Well No. 1 in Unit K of Section 2,
T28S, R37E

Gentlemen:

It is requested that a retest be taken of the segregation test submitted to this office dated April 5, 1963, on the above captioned well.

It is further requested that the test begin at 11:00 a.m. M.S.T. on May 27, 1963, at which time a Commission representative will meet with company representatives at this well.

It is also requested that all well head equipment, such as chokes, valves, stuffing boxes, etc., be properly readied so that no leaks will be incurred during this test.

If this schedule presents any conflict with previously scheduled work, please notify the Commission as soon as possible so that a new test date may be set up.

Very truly yours,

OIL CONSERVATION COMMISSION

Leslie A. Clements
Oil & Gas Inspector
