Re: Application of Union Oil Company of California for an Unorthodox Gas
Well Location, Lea County, New Mexico

Gentlemen:

Enclosed is a copy of the application of Union Oil Company of California seeking administrative approval of an unorthodox gas well location in the Devonian formation, Red Lakes Devonian Pool, for its Red Hills Unit Well No. 1. The location in the Devonian will be 330 feet from the South line and 2310 feet from the East line of Section 32, Township 25 South, Range 33 East, N.M.P.M., Lea County, New Mexico. As you will note from the enclosed application, this well was originally drilled as an Ellenburger test in February, 1963 and a 40-acre tract comprised of the SW/4 SE/4 of Section 32 dedicated to the well. Later it was duly completed as a gas well in the Wolfcamp and Atoka formations. Union Oil Company of California proposes to abandon the Wolfcamp and recomplete this well as a dual completion in the Devonian and Atoka formations. Both zones will be gas wells and both formations are developed on 640-acre spacing. The well was originally drilled to the Ellenburger at a standard location.

Union requests you waive objection to this location. If you are agreeable to doing so, please indicate your waiver by signing and dating this letter where indicated below, and return one copy to me at the above captioned address.
