PACKER-SETTING AFFIDAVIT  
(Dual Completions)

State of OKLAHOMA )  
County of OKLAHOMA ) ss

JOHNNIE FRENCH, being first duly sworn according to law, upon his oath deposes and says:

That he is of lawful age and has full knowledge of the facts herein below set out.

That he is employed by Olsen Oils, Inc. in the capacity of Superintendent and as such is its authorized agent.

That on January 12, 1965, he personally supervised the setting of a MWL BOT Type BP-4 7" Casing Packer in Olsen Oils, Inc.'s  
(Make and Type of Packer) (Operator)

Olsen-Stuart Well No. 2, located in Unit  
(Lease)  
Letter K, Section 11, Township 25 South, Range 37 East, NMPM,

Lea County, New Mexico. Also supervised by MWL Tool Company's Supervisor.

That said packer was set at a subsurface depth of 5680 feet,  
said depth measurement having been furnished by tubing measurement.

That the purpose of setting this packer was to effect a seal in the annular space between the two strings of pipe where the packer was set so as to prevent the commingling, within the well-bore, of fluids produced from a stratum below the packer with fluids produced from a stratum above the packer. That this packer was properly set and that it did, when set, effectively and absolutely seal off the annular space between the two strings of pipe where it was set in such manner as that it prevented any movement of fluids across the packer.
