17. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

In drilling the 7-7/8" hole to 9144 feet, high angle from the vertical began to be a problem from 8,000 feet down and was at 6 1/2° when the lower drill string became stuck and unrecoverable. Backed off drill string leaving top of fish at 8,806 feet. Ran orientation survey from 8500 feet to surface to locate exact position of drilled hole. Plan to plug back hole to approximately 8,000 feet and set a whipstock to deviate hole in the opposite direction from that in which the previous high angle hole was proceeding.

(Verbal permission obtained from Joe Ramey on April 11, 1967.)
