Attention: Mr. Sheldon Ward

Gentlemen:

This office is in receipt of Form C-103 indicating that your Eaton S.W. Well No. 9 was temporarily abandoned on March 1, 1968. On March 11, 1968 this office approved Form C-103 for this well covering a workover which was to locate and repair communication. From this form it is evident that the communication was not repaired, and I made a notation that you repair the communication immediately.

This office will not permit a well to be shut in when the well is a dual completion and the zones are in communication. This is in direct violation to the Commission's Rules and Regulations. You are therefore directed to repair the communication in this well, or properly plug and abandon the well immediately.

Yours very truly,

OIL CONSERVATION COMMISSION
