Letter to  
New Mexico Oil Conservation Commission

Application for Downhole Commingling  
S. W. Eaton Well No. 10  
Justis Blinebry and Justis Tubb Drinkard  
Lea County, New Mexico

Page Two

5. Texas Pacific has commingled these fluids at the surface and has encountered no incompatibility problems; therefore, no reservoir damage will result from downhole commingling.
6. The surface commingling resulted in no reduction of oil value; therefore, downhole commingling will not reduce oil value.
7. The ownership of the zones to be commingled is common.
8. A plat of the well location showing offset operators notified by copy of this request.
9. Commingling will not jeopardize future secondary recovery operations.

Very truly yours,

TEXAS PACIFIC OIL COMPANY, INC.
