13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

Kenson Operating is currently redeveloping the Langlie Jal Unit by down spacing producer well density to 20 acres and reducing five-spot flood patterns to 40 acres. This well is needed for future use as a down spaced water injection well, when the infill drilling program reaches this part of the unit.

It is anticipated this will happen within the next year to 18 months.

\* Subject to MIT w/in 30 days.

14. I hereby certify that the foregoing is true and correct
