Re: Woolworth No. 2, N/2 SW/4
Section 33, T-24-S, R-37-E,
Lea County, New Mexico

Gentlemen:

We are currently completing our No. 2 Woolworth well as a gas producer from the Yates formation in the Jalmat Gas Pool. The well is located 1980 feet from the south and 1650 feet from the west lines of Section 33, T-24-S, R-37-E, Lea County. Our lease acreage consists solely of the N/2 SW/4 of Section 33, and we therefore request that you approve a non-standard gas spacing unit for our well in the Jalmat Gas Pool consisting of the N/2 SW/4 of Section 33. The requested non-standard unit was formerly a non-standard unit in the Jalmat Gas Pool for the Julian E. Simon No. 1 Woolworth well, now abandoned, situated on the same unit tract.

Three copies of plat showing the location of our well and our proposed spacing unit are enclosed. The proposed unit is outlined in red.

Copies of this application and plat have been sent to all offsetting operators, as follows:

Husky Oil Company
600 South Cherry St.
Denver, Colorado 80222

Reading & Bates Oil and Gas Co.
3800 First Place
Tulsa, Oklahoma 74103

Atlantic Richfield Co.
P. O. Box 1610
Midland, Texas 79702

Phillips Petroleum Company
Phillips Building
Odessa, Texas 79761

Yours very truly,

BURLESON & HUFF
