P. O. Box 2088

Santa Fe, New Mexico 87501

Gentlemen:

A non-standard gas proration unit comprising the SW/4 Section 28, T24S, R37E, Lea County, Jalmat Pool, was authorized by RSP-596. This acreage is currently dedicated to the Dallas McCasland, Litie Woolworth No. 3, located 990' FSL and 990' FWL of said Section 28.

Production from the Woolworth No. 3 has declined to marginal status. In order that the full 160-acre allowable can be utilized it is proposed to drill a well to be located 660' FSL and 1980' FWL of said Section 28 with production from both wells to be applied against the top allowable for the proration unit.

Permission is hereby requested to dedicate the SW/4 Section 28, T24S, R37E simultaneously to Litie Woolworth No. 3 and the proposed Litie Woolworth No. 5.

Yours very truly,

OIL REPORTS & GAS SERVICES, INC.
