Re: Coll A # 2, NE/4 Sec. 29,
T-25-S, R-37-E,
Lea County, New Mexico

Gentlemen:

We are preparing to drill our Coll A # 2 well as a Yates gas well. The well is located 330 feet from the east and 1980 feet from the north lines of Section 29, T-25-S, R-37-E, Lea County. This well's location was moved to this spot because it is in the townsite of Jal, New Mexico and this moves it further away from adjacent structures. There is an old abandoned well at the standard location. For this reason we hereby request that you approve this non-standard location for this well. Three copies of a plat showing the location of this well are enclosed.

By Order No. R-4641 dated October 11, 1973 the NE/4 of Section 29, T-25-S, R-37-E, Lea County was approved as a non-standard gas proration unit for the production of Yates gas from the Jalmat Gas Pool for our Coll A # 1 well. Since our Coll A # 2 will be a replacement well for the Coll A # 1 well, which will be either plugged or recompleted in the Langlie-Mattix Queen Pool, we hereby request that you transfer your approval for this non-standard unit to our Coll A # 2 well.

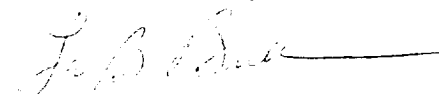

Copies of this application and plat have been sent to all off-setting operators, as follows:

Bettis, Boyle & Stovall
P. O. Box 1168
Graham, Texas 76046

Atlantic Richfield Company
P. O. Box 1610
Midland, Texas 79702

Yours very truly,

BURLESON & HUFF
