If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)\*

Well has had an influx of water and would not produce natural.

We propose to:

1. Test 4½" production casing for leaks and if no leaks found in the production casing to install rod, pump, and pump jack to artificially lift water and test for commercial production of gas.

Date work expected to start--March 12, 1981.
