Lanexco, Inc. requests to continue this well as TA'd status.

The reason we are requesting this is because we are still not certain if we are going to lose our current disposal. The company who owns the disposal we are using is in the process of going out of business. If they do go out of business and we lose the use of their disposal, we will then try to convert our #2 well into a disposal. If we are forced to plug the well and then lose our present disposal, then we would possibly have to shut in the rest of the lease, due to the high cost of trucking water. The rest of the lease makes between 175 and 225 bbls. per day. We are still not certain how long it will be before we find out if this company is closing or what.
