13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)\*

This well was TA'd because of continuing rod failures and high cost of maintaining the well. It has been discussed to either convert to a disposal well or be recompleted in a different reservoir.

Lanexco, Inc. requests this well be allowed to continue temporarily abandoned status. If approved the following procedure will be used:

Set CIBP at 6600 ft.

Load the casing and pressure test to 500 PSI for 30 minutes

This work will be performed as soon as possible upon BLM approval.

14. I hereby certify that the foregoing is true and correct
