Dear Sir:

RE: W. H. Harrison "D" No. 7
Completion as a Jalmat Oil Well

ARCO Oil and Gas Company recently completed its W. H. Harrison "D" Well #7 in the Jalmat Pool. This well is located 1980' FSL and 1980' FWL of Section 29-T24S-R37E, Lea County, New Mexico.

On July 5, 1982, this well tested for 25 BOPD plus 400 MCFPD. With a GOR of 16,000, this well will be classified as an oil well. Well No. 7 is located in the same 320 acre non-standard proration unit established by Order No. 5392, dated March 15, 1977, and assigned to W. H. Harrison "A" WN No. 2 and W. H. Harrison "D" WN wells No. 1 and 6. These wells are produced as Jalmat gas wells.

ARCO Oil and Gas Company hereby requests a change from a 320 acre to a 280 acre non-standard proration unit, and assignment of a 40 acre proration unit to the newly completed W. H. Harrison "D" No. 7, a Jalmat oil well. This letter will serve to notify the offset operators. Your cooperation will be appreciated.

Yours very truly,

J. L. Tweed
