17. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

We have experienced water break through on this well and intend to squeeze present perforations (19 holes), 2757 to 2889. We propose to set cement retainer at 2700 and squeeze with 150 sacks. Maximum squeeze pressure 3000 psi. After squeeze we will drill out cement retainer, clean out to PBTD 3144, and test squeezed perforations. We will make a study of well before re-perforating.

Verbal Approval By Eddie Seay 12-28-82

18. I hereby certify that the information above is true and complete to the best of my knowledge and belief.
