Mr. Sexton:

Alpha Twenty-One Production Company respectfully requests an exemption to the 72-hour shut in pressure test due July 23 on the above referenced well.

Production has been lost on this well due to the amount of time this well has been shut in since it was drilled. We are in the process of putting the well on the pump.

If further information is required, please contact me. Thank you for your kind consideration regarding this matter.

Sincerely yours,

Robert W. Lansford
VP/Energy Resources
