Completion Test

I hereby certify that the above information is true and complete to the best of my knowledge and belief.

It is noted that the amount of oil produced on the official test,

No well will be assigned an allowable greater than the amount shown.

During gravel-silt tests, each well shall be produced at a rate not exceeding the top unit allowable for the pool in which well is located by more than 25 percent. Operator is encouraged to take advantage of this 25 percent tolerance in order that wells can be assigned increased allowables when authorized by the Division.

by more than 25 percent. Operator is encouraged to make use of all available when authorized by the Division.

Subjecting subject to low level of stress and subject to low level of stress.

Report covering period from 1/1/50 to 12/31/50.
