

10/07/93

JERRY SEXTON

UNOCAL RECIEVED A VERBAL AGREEMENT TO FLARE GAS FROM THE RED HILLS #1, 2, & 28#1 WELLS FOR THE DAYS SID RICHARDSON WAS WORKING ON THEIR PLANT. WE ASKED TO FLARE DUE TO THE FACT THAT THE WELLS ARE VERY HARD TO GET TO UNLOAD AND REACH THE LEVELS OF PRODUCTION PRIOR TO SHUT IN. IN JANUARY 1991 #2 WAS FLOWING 1600 MCF/DAY WE HAD TO SHUT IN AND THE WELL CAME BACK ON AT A RATE OF 991 MCF/DAY. WE HAVE WORKED WITH THE WELL BUT IT HAS NOT FLOWED MUCH BETTER SINCE. THAT IS THE BEST EXAMPLE WE HAVE FOR LOSS OF PRODUCTION DUE TO PLANR RELATED SHUT INS. GAS WAS FLARES FROM 10/03/93 TO 10/06/93
RED HILLS #1 UNIT O SEC.32-T-25-S-R33-E LEA CO.
RED HILLS #2 UNIT B SEC.5-T-26-S-R-33-E LEA CO.
RED HILLS 28'31 UNIT G SEC.28-T-25-S-R-33-E LEA CO.

#1 FLARED APPROX 300 MCF/DAY
#2 " " 900 " "
#28-1 " " 1000 MCF/DAY

THANK YOU
RANDY DUTTON
