Re: Amendment to Administrative
Order NSL-2488
West Dollarhide Queen Sand Unit

Gentlemen:

We have applied for a re-submittal of the drilling permit for well #140 on the above reference unit. The well was not drilled at the time it was first permitted.

The well is an unorthodox location and was originally approved on March 30, 1988. The location of this well has been re-staked to 2150' FSL 1425' FWL due to a permanent overflow pit has been built in the original location. We would like to amend the Order for such reason.

If there additional questions or requests please call me at 915/685-0878.

Sincerely,

Bonnie Atwater
