Jalmat Pool

Gentlemen:

We are in receipt of your letter, revised plats for #7-I, #10-F and #13-0, along with a gas/oil ratio test for #10 indicating the well should be reclassified to oil.

Before we can act upon this reclassification it will be necessary for you to make application to our Santa Fe office for the revision of NSP-1628 which established the 480-acre proration unit and request that it be reduced to 440 acres due to reclassification of #10 to an oil well.

If you have questions concerning this application, please contact Mike Stogner in our Santa Fe office at (505) 872-5811.

Very truly yours,

OIL CONSERVATION DIVISION
