Re: Application of Tahoe Energy, Inc. for Approval of a  
40 acre Non-Standard Jalmat Gas Pool Proration Unit  
Comprised of the NW/4 NW/4 of Sec. 19, Township 25  
South, Range 37 East, N.M.P.M., Lea County, New  
Mexico

Dear Mr. Stogner,

Tahoe Energy, Inc. hereby makes application for approval  
of a non-standard Jalmat Pool proration unit comprised of the  
NW/4 NW/4 of Section 19, Township 25 South, Range 37 East  
N.M.P.M., Lea County, New Mexico. This non-standard unit  
will be dedicated the Junk Yard Dog No. 1 well located in the  
NW/4 NW/4 of said Section 19.

A non-standard unit comprised of the NW/4 NW/4 of  
Section 19 had been dedicated to Junk Yard Dog #1 well in  
November 1991 but for a oil well. The production indicates  
that the well is a gas well, so therefore, we would like to  
make application for approval of a non-standard proration  
unit so as to reclassify the well.

Notice of this application has been provided by  
Certified Mail to all offsetting operators and all operators  
in Section 19, and their waiver of objection has been  
requested.

Enclosed for your review are copies of (1) a plat  
showing the proposed unit and operators in the affected area  
and (2) notice letters to all affected operators providing  
notice of this application as required.
