

- (d) Perforations will be determined but will consist of 10-20 jet shots.
- (e) Stimulation procedures will be determined.
Appropriate Sundry Notice will be submitted for stimulation treatment.

9. **Any Anticipated Abnormal Pressures or Temperatures:**

No abnormal pressures or temperatures have been noted or reported in wells drilled in the area nor at the depths anticipated in this well.

No hydrogen sulfide or other hazardous fluids or gases have been found reported or known to exist at these depths in the area.

10. **Anticipated Starting Date and Duration of the Operations:**

The Anticipated starting date is set for March 15, 1991, or as soon as possible after examination and approval of drilling requirements. Operations cover six (6) days for drilling and seven (7) days for completion; up to six (6) months for clean up, depending on weather conditions.
