Attention: Mr. Michael E. Stogner

Gentlemen:

An exception, by administrative approval, to Rule 104 F.I. is requested for Texaco Exploration and Production Inc.'s West Dollarhide Drinkard Unit Well Nos. 123, 125, 126, 127, and 128. The wells are located as follows:

Well No. 123:	1275' FSL & 200' FWL,	Sec.32, T-24-S, R-38-E
Well No. 125:	1150' FSL & 1400' FWL,	Sec.33, T-24-S, R-38-E
Well No. 126:	2450' FSL & 150' FWL,	Sec.33, T-24-S, R-38-E
Well No. 127:	2630' FNL & 1440' FWL,	Sec.33, T-24-S, R-38-E
Well No. 128:	1310' FNL & 150' FWL,	Sec.33, T-24-S, R-38-E

The wells must be drilled in these locations to ensure proper development on 10-acre spacing. Wells drilled previously on 10-acre spacing have proven to be viable wells. These wells will be completed in the Drinkard formation.

It should be noted that there are no affected offset operators to Well Nos. 123, 125, 126, 127, or 128.

Attached are Forms C-102 for each well and a lease plat showing the existing wells, and locations of the subject wells.

Yours very truly,

C.P. Basham / cwh
