Asked Buddy Hill to go by and call back with status of the McDonnold Operating, Inc, Jack A-29 #9-H, 29-24s37e. He reported that it looked like the well had just had some service done to it and that the well was flowing.

Information: Well drilled 10/28/95 . OCD still needs Logs and Deviation Survey. Holding C-104.
Operator does not have an allowable. *1/16/02*

Told Chris and I call the BLM. Armando was not in. Talk to Jim Ames 234-5909. He took the information and said to call the Hobbs BLM office. Called 393-3612 and talked to Cortez the only one in the office. Gave him the information and he gave OCD permission to shut-in the well.

Told Chris and he called Buddy Hill to shut-in the well.
