**Attention: Denise Leake**

**Re:** *Administrative application initially submitted on November 5, 2001 (application reference No. pKRV0-131354762) for simultaneous dedication involving the Erwin "A" Federal Well No. 7 (API No. 30-025-33138) located in Unit "M" of Section 35, Township 24 South, Range 37 East, NMPM, Lea County, New Mexico.*

Dear Ms. Leake:

On February 14, 2002, I sent a letter requesting additional information to support Texaco's above-described application. To date I have not received a reply. This bureau has recently enacted a policy whereby any incomplete administrative filing older than 30 days is to be withdrawn and returned. This new policy, as I understand, will better serve our customers and help assure a quicker turn around time by this bureau on administrative filings.

In order to fully comply with this policy, I am withdrawing your application and returning it to you at this time.

Thank you for your understanding and cooperation.

Sincerely

Sincerely,

Michael E. Stogner  
Chief Hearing Officer/Engineer

**From:** Stogner, Michael  
**Sent:** Thursday, February 14, 2002 3:41 PM  
**To:** Denise Leake (E-mail)  
**Subject:** G. L. Erwin "A" Federal Well No. 7

I was just recently able to return to your application (pKRV0-131354762) of November 5, 2001.

However, I am in need of additional information. This time I need the correct current completion interval(s) for the G. L. Erwin "A" Fed. Well No. 6 in Unit "N" of Section 35. The C-102 for this well submitted with your application shows the N. Justis-Bliebry-Tubb-Drinkard Pool - there is no such pool. The pool code shows 34220 which is the Justis-Bliebry-Tubb-Drinkard, but this well is no where near this pool. On the C-102 the bottomhole location for the well indicates it to be 2270' FNL & 1185' FWL (Unit L) of Section 35, is this a proposed directional drill or actual. If actual, when did Texaco perform this work. My production figures on this well for the Justis-Bliebry Pool (34200) does not show any appreciable interruption in producing days for the last two years for such directional drilling operations to have occurred.

Also, you requested the G. L. Erwin "A" Fed. Well No. 1 be included within the requested 80-acre project area, being the S/2 SW/4 of Section 35. My records indicate that this well was P&A'ed in May, 2001. Why was it included in this application for simultaneous dedication? Will Texaco be re-entering this well?

I tried calling but all the phone numbers I have do not work. Sorry for my lateness on returning to this application.

Mr. Stogner,

I received this e-mail regarding the G.L. Erwin 'A' Fed. #7 well. I would be more than happy to provide you with the information you require. For the wellbore schematic, are you referring to the detailed horizontal wellpaths, or the schematic of the vertical wellbore (prior to drilling the horizontals)?

ATTENTION: Mr. Michael Stogner

RE: **APPLICATION FOR SIMULTANEOUS DEDICATION  
AND FORMATION OF PROJECT AREA**

Dear Sirs,

Texaco respectfully seeks approval for simultaneous dedication of G.L. Erwin "A" Federal Well number 7, API #30-025-33138, in Lea County, New Mexico, with G.L. Erwin "A" Federal Well #1, #3, & #6.

The #7 well will be a horizontal lateral in the Blinberry and Drinkard formations. These re-entries are both from the same wellbore and follow the same directional path, but the kickoff points are at different depths. The directional survey indicates that these re-entries are at standard locations.

Plats (Form C-102) are included showing the locations of wells #1, #3, #6, and #7, along with a copy of the intent to drill the horizontal lateral.

Each horizontal covers two 40 acre proration units (#7 well, and the proration unit due east). Dedicated acreage will be 80 acres (project area is S/2 of the SW 1/4 section of Section 35).

If you have any further questions, please contact me at (915) 688-4752, or contact Denise Wann at (915) 688-2982.

Thank you for your consideration.
