Regarding conversation today with Mike Stogner and David Catnack at NMOCD in Santa Fe regarding above well... We have verbal approval to drill. Can form a Project area of 240 acres to include Unit Letters A, B, C, F, G, H. Will need to re-file for a 120 acre dedicated acres to include Unit B, G, H after the #24 is drilled to obtain allowable. **Will not need a Non-Standard location. Will need a Simultaneous dedication plat** to include all wells in the 120 before we can produce well. Any more question....please call
