Objective: Assignment of single well number to well currently assigned two numbers

The subject well was a dual completion originally numbered with two separate numbers when unitized. The numbers were to indicate completion intervals- I.E. : 100 series = Langlie Mattix Oil; 200 series = Jalmat Oil; 300 series = Jalmat Gas. These separate numbers are no longer required, with only the 100 series to be utilized in the future.

Request Cooper Jal Unit Well #236 number be assigned to existing Cooper Jal Unit Well #120 (as a DHC Langlie Mattix/Jalmat injection well)

Subject well will be referred to as Cooper Jal Unit #120 from this date forward.

I hereby certify that the information above is true and complete to the best of my knowledge and belief.
