Date

OIL CONSERVATION COMMISSION,
Santa Fe, New Mexico.

Gentlemen:

Following is a notice of intention to do certain work as described below at the

Culbertson & Irwin, Inc. Harrison Well No. 3 in NW/4
Company or Operator
of Sec. 25, T. 24S, R. 36E, N. M. P. M., Cooper-Jal Field.
Lea County.

FULL DETAILS OF PROPOSED PLAN OF WORK

FOLLOW INSTRUCTIONS IN THE RULES AND REGULATIONS OF THE COMMISSION

On Form C-101 dated 10/5/50, we stated that we proposed to use 10 3/4" surface casing and a 7" oil string in drilling the above well. We have now changed this plan and propose to use the following casing program: 250' 8 5/8" 28#, S.H. casing set in red beds and cemented to surface; 3000' 5 1/2" 14#, seamless casing set in 8" hole and cemented with 2-stage tool; 200 sax at shoe and 200 sax at top of salt.

8 5/8" casing set at 242', being 20' in the red bed section and cemented by Halliburton with 100 sax on 11/3/50. Cement was circulated to surface. Will let set 48 hours, drill plug and test with 500# pump pressure.
