Result Of Repairing Well

Hobbs, New Mexico. 3/3/35

Place

Date

Mr. **E.H. Wells** State Geologist,
 Santa Fe, N. Mex.

Following is a notice of intention to do certain work as described below at the _____

Tide Water Oil Company. C.D. Woolworth Well No. **1** in **SE 1**
Company or Operator Lease

of Sec **25**, T **24**, R **36**, N. M. P. M., **Cooper**

Oil Field, **Lea** County.

DETAILS OF PROPOSED PLAN OF WORK

Well was cemented back to 3439' and allowed to stand undisturbed for 84-hrs. Was then bailed ~~dry~~ down to 2000' and allowed to stand 36-hrs. and water did not come up hole, then the Casing was perforated with Lane-Wells Company. There were 14-holes shot in the Casing from 3413' to 3422'. After Casing was shot swabbed 8-hrs but the well would not flow, we thought the shots had started the plug to leaking, and packer was set with top at 3426' but still it would not flow. It was then treated with 500-gallons of Dowell X acid

Approved _____, 19____
 except as follows:
