InRe: Application for Non-Standard
Gas Proration Unit for R.
Olsen Woolworth #1, Lea Co
N E W M E X I C O

Gentlemen:

By this letter R. Olsen hereby makes application for approval of a non-standard gas proration unit for his #1 Woolworth well in Lea County, New Mexico, and in connection therewith makes the following statements:

A. That said Woolworth #1 well is located 330 feet West of the East line and 660 feet North of the South line of the Southeast Quarter (SE/4) of Section 26, Township 24 South, Range 36 East. That said well was completed August 6, 1951, at a total depth of 2875 feet, producing from the Yates formation. That 5-1/2" oil string was set at 2695 feet.

B. That R. Olsen has completed the pooling of the SE/4 of said Section 26 to form a 160 acre gas unit, and that copies of instruments covering said pooling are now on file in your office.

C. That said well is offset to the South by another of R. Olsen's leases and that, according to our records, the only other operator within 1500 feet of this well is the Southern California Petroleum Corporation.
