Re: Acreage Woolworth #1  
Sec. 26-24-36

Dear Sir:

Referring to your letter of January 18th, 1955, relative to the increase in acreage for your Woolworth #1 26-24-36, we wish to advise that we did receive all the communitization instruments to which you refer. Upon receipt of the notice that you had communitized the acreage we expected you to make application to our Santa Fe office for the operation of a non-standard proration unit under Order R-520, but I am advised by our Santa Fe office that no such application has been received. In order to avoid further delay in the matter of increasing the acreage it is suggested, therefore, that you file the application for a non-standard proration unit as early as possible.

Yours very truly,

OIL CONSERVATION COMMISSION

A. L. Porter, Jr.  
Proration Manager
