NEW MEXICO STATE LAND OFFICE

OFFICE OF THE STATE GEOL JIST

SANTA FE, NEW MEXICO

MISCELLANEOUS REPORTS ON WELLS

Submit this report in duplicate to the State Geologist or proper Oil and Gas Inspector within ten days after the work specified is completed. It should be signed and sworn to before a notary public for reports on beginning drilling operations, results of shooting well, results of test of water shut-off, result of abandonment of well, and other important operations, even though the work was witnessed by the State Geologist or Oil and Gas Inspector. Reports on minor operations need not be signed and sworn to before a notary public, but such operations should be witnessed by an Oil and Gas

inspector if possible. Indicate natural	re of rep	ort by checkin	g below:

DEPARTMENT OF THE STATE GEOLOGIST NOTICE OF INTENTION TO TEST WATER SHUT-OFF

Notice must be given to the State Geologist or to the proper Oil and Gas Inspector at least five days before the test. It is desirable that a representative of the Department of the State Geologist witness the water shut-off before drilling into the productive sand whenever possible. If changes in the proposed plan are considered advisable, a copy of this notice showing such changes will be returned to sender. Submit this notice in triplicate.

State Geologist, Santa Fe, New Mexico. Dear Sir: You are hereby notified that we intend to test the shut-off of water in Well No 12 in 12 SW2 of Sec. 26 , T. 24S , R. 56E N. M. P. M., Jal Oil Field Lea County, on January 28 19 55 18 1/2 in 50 lb. casing was feet on January 25, 19 35 150 sacks of Incor cement were used. The method used in placing the cement was as follows: Halliburton Fluid level will be bailed to a depth of 205 feet and left undisturbed for at least	Bart	lesville, Okla	home N.
