Instructions

General: This form is designed for submitting proposals to perform certain well operations, as indicated, on all types of lands and leases for appropriate action by either a Federal or a State agency, or both, pursuant to applicable Federal and/or State laws and regulations. Any necessary special instructions concerning the use of this form and the number of copies to be submitted, particularly with regard to local, area, or regional procedures and practices, either are shown below or will be issued by, or may be obtained from, the local Federal and/or State office.

Item 1: If the proposal is to redrill to the same reservoir at a different subsurface location or to a new reservoir, use this form with appropriate notations. Consult applicable State or Federal regulations concerning subsequent work proposals or reports on the well.

Item 4: If there are no applicable State requirements, locations on Federal or Indian land should be described in accordance with Federal requirements. Consult local State or Federal office for specific instructions.

Item 14: Needed only when location of well cannot readily be found by road from the land or lease description. A plat, or plats, separate or on this reverse side, showing the roads to, and the surveyed location of, the well, and any other required information, should be furnished when required by Federal or State agency offices.

Items 15 and 18: If well is to be, or has been directionally drilled, give distances for subsurface location of hole in any present or objective production zone.

Item 22: Consult applicable Federal or State regulations, or appropriate officials, concerning approval of the proposal before operations are started.

Gentlemen:

In accordance with Rule 1203 application is hereby made on behalf of Sidney Lanier for an Examiner Hearing before the Oil Conservation Commission for the purpose of presenting evidence to obtain Commission approval to dispose of produced oil field brine by injection into the Yates-Seven Rivers formation.

Applicant proposes to re-enter the Sidney Lanier - I. B. Ogg "A" No. 5, located 1980 feet from South line and 1980 from East line of Section 35, Township 24 South, Range 36 East, Lea County, New Mexico, and deepen to approximately 3650 feet.

Injection will then be made into the open hole interval 3402 to 3650 through 2 7/8" plastic coated tubing below a packer set at approximately 3350 feet.

All salt water to be so disposed to be produced from the Yates-Seven Rivers formation of the Jalmat Pool.

Interested parties who have this day been furnished a copy of this application:
