MISCELLANEOUS REPORTS ON WELLS

Submit this report in duplicate to the State Geologist or proper Oil and Gas Inspector within ten days after the work specified is completed. It should be signed and sworn to before a notary public for reports on beginning drilling operations, results of shooting well, results of test of water shut-off, result of abandonment of well, and other important operations, even though the work was witnessed by the State Geologist or Oil and Gas Inspector. Reports on minor operations need not be signed and sworn to before a notary public, but such operations should be witnessed by an Oil and Gas inspector if possible.

Indicate nature of report by checking below:

REPORT ON BEGINNING DRILLING OPERATIONS	REPORT ON DEEPENING WELL
REPORT ON RESULT OF SHOOTING WELL	REPORT ON PULLING OR OTHERWISE ALTERING CASING
REPORT ON RESULT OF TEST OF WATER SHUT-OFF	REPORT ON REPAIRING WELL
REPORT ON RESULT OF ABANDONMENT OF WELL	To Setliner Packer

Mr. E. H. Wells State Geologist,
Santa Fe, N. Mex.

Following is a report on the work done and the results obtained under the heading noted above at the Woolworth Well No. 1 in the Woolworth Company or Operator of Sec 35, T. 24 S, R. 36 E N. M. P. M., Jal, New Mexico Oil Field, Lea County.

The dates of this work were as follows: June 2, 1935

Notice of intention to do the work was (was not) submitted on Form SG _____ on _____ 19____, and approval of the proposed plan was (was not) obtained. (Cross out incorrect words.)

DETAILED ACCOUNT OF WORK DONE AND RESULTS OBTAINED

After the 5 $\frac{1}{2}$ " C. D. was set and cemented at 3420, the well having been cored to 3474, tubing was run and the well was swabbed in and after it flowed all of the wash water out, it was free of water indicating there were no casing leaks. This was the only test that could be made due to the fact that the well was cored into the pay formation prior to cementing casing.
